Comment:

re public comment on DHS-food and drug administration in federal register on 3/29/04 vol 69 no 60 page 16275 - please forward to jeanne latham, center for food safety and applied nutrition (hfs-800) food and drug administration, 5100 paint branch parkway, college park md 20740

Comments for meeting to be held
on April 27 and 28, 2004 record.

Please don't let the food profiteers
overwhelm the interests of the american public, which needs pesticide free, chemical free, genetic free
healthful food w/o all the cheap ingredient substitutes that manufacturers are putting into products.

also i think the
agenda should include focus discussion on how FDA can truly protect the american public instead of
capitulating to manufacturers to let in cheap, unhealthful ingredients.

these are my comments for the meeting record.
